

which strengthens their growth and development in a multitude of areas, including math, fine motor, problem solving, and cooperative play.

Field Trips

Our program includes frequent field trips on the Storybook van. These excursions enhance our classroom activities by providing the children with opportunities to learn about the outside world hands on. We venture to many exciting and educational destinations, including the Post Office, the library, farms, Strong Museum, RMSC and the Planetarium, a fire department, and the zoo. We also go to places that are just plain fun like Discovery Zone, bowling and various parks.
